International Academies of Emergency Dispatch

Health Care Provider Level CPR Certified
American Heart Association

EXPERIENCE

February 2017 - Current
Communications Supervisor • EMT • MEMS, Little Rock, AR

In a supervisory role, I received and prioritized emergency and non-emergency calls, effectively dispatched EMS units while supervising a busy 911 system utilizing real time data. I also trained and supervised a team of dispatchers, enforced company policies, evaluated staff performance for efficient operations and provided coaching to address inefficiencies.

September 2009 - September 2019
Sergeant • Squad Leader • U.S. Army, North Little Rock, AR

While deployed to Kuwait, I efficiently managed a 6-member construction squad, overseeing property and equipment inventory, crew assignments, and providing thorough reports to superiors on squad activities, including readiness and equipment status. Additionally, I received training in conflict resolution, rated job performance for 6 subordinates, upheld Army dress and appearance regulations, and served as a designated mandatory reporter for sexual assault and a responder for suicide prevention situations.

April 2012 - February 2017
Ground Line Technician • TRC Consulting, Jacksonville, AR

I inspected and treated over 50 utility poles daily to prevent decay and damage, saving 8 poles from complete replacement per day. Additionally, I efficiently operated equipment, documented findings, communicated with team members, engaged with customers professionally, and executed tasks within time and budget constraints.
